

IUPAC Project Progress Report

Date: 26 September 2008

Task Group Leader: Ryszard Lobinski

Project number: 2006-037-1-500

Project Title: Metal-focussed –omics: guidelines for terminology and critical evaluation of analytical approaches

Report:

1. Current status of project: **on-going**
2. Progress relative to 'milestones': **a draft of the terms definitions approved by the TG members was sent for consultation to an interdisciplinary target group of 15 people. A number of comments have been received and were discussed.**
3. Difficulties encountered (or concerns): **the consensus among chemistry and other disciplines, such as plant biology and medicine may be difficult to achieve.**
4. Projected completion date (documents ready for external review): **July 2009**
5. Please list all of the intended outputs and the dissemination plan for this project (viz. articles, CD, conference presentations; etc.). These may have been expanded since project approval: **Technical report containing the annotated definitions**
6. If your project is within 6 months of completion, how do you plan to utilise any remaining budget for this project? **NA**
7. Work on this project may have identified new problems, issues, challenges, emerging topics, opportunities for related projects, etc. Please indicate these here so that the Division can follow up on them: **NA**
