

IUPAC Project Progress Report

Date: October 29, 2008

Task Group Leader: David Shaw

Project number: 2008-008-1-500

Project Title: [An introduction to the IUPAC-NIST Solubility Data Series: Preparation and use of compilations and evaluations](#)

Report:

1. Current status of project: A meeting of Task Group members was held in Dublin, Ireland in August 2008. The TG discussed and agreed on the nature and scope of the article to be prepared, edited material previously drafted, and agreed on distribution of additional writing assignments to complete the manuscript.

2. Progress relative to 'milestones': Satisfactory

3. Difficulties encountered (or concerns): None

4. Projected completion date (documents ready for external review): mid 2009

5. Please list all of the intended outputs and the dissemination plan for this project (viz. articles, CD, conference presentations; etc.). These may have been expanded since project approval: Project will result in a Technical Report to be published in PAC. Possible republication in the Journal of Physical and Chemical Reference Data, the publisher of the Solubility Data Series, is under discussion with the editor of JPCRD.

6. If your project is within 6 months of completion, how do you plan to utilise any remaining budget for this project? All funds were spent on the Dublin meeting.

7. Work on this project may have identified new problems, issues, challenges, emerging topics, opportunities for related projects, etc. Please indicate these here so that the Division can follow up on them: None
